SMITH'S GOOD-LOOK STORY. Had bought a \$100 policy for a FIRE INSURANCE. Four months later his home lay in ashes. Yet the next day his collected insurance brought him a better one. Best that \$100 investment if you can't say we serve you too?

LEMONNE HAD SOMETHING ON HARRIS

Webster Boxer Was Given Popular Decision Over Willamantic Scrapper—Bout Stopped in the Ninth—Two Other Good Bouts on Windham A. C. Card.

(Special to The Bulletin.)
A crowd of about 200 witnessed an excellent boxing exhibition Tuesday evening before the Windham Athletic club at Willamantic. The card comprised three bouts, all of which were very good.

A preliminary, a four round bout between Young Lisle of Willamantic and Kid Fournier of Baltimore, was the best given under the auspices of the club this season, and was practically an even go.

The semi-final, a five round exhibition between Young Mack and Kid Collins of Willamantic, was fast and clever, Young Mack having a slight advantage.

The final event of ten rounds between Block Harris of Willamantic and Morris Lemone of Webster, Mass., proved a fine bout. The Willamantic lad had the best of the game up to the eighth round, and Lemone had the appearance of straining in several rounds.

The eighth and ninth rounds were clearly Lemone's, and the referee stopped the bout in the latter session with the advantage in favor of the visitor.

Wade L. Webster was announced and timekeeper and Frank McLean was referee.

The work of the participants in the preliminary was such that they are matched to meet again two weeks. Kid Fournier and Joe Farnell of Boston, who bested Young Sam Langford before the Willamantic club recently, are matched for the star bout here in two weeks.

BASEBALL CIRCUIT COMPLETE.
New League Will Open May 1—No Reserve Clause in Contracts.

Reading, Pa., Feb. 6.—William Abbott Witman of this city, president of the new United States league of baseball clubs, issued his first official bulletin tonight, announcing the completion of the circuit. The season will open May 1. Contracts with players will be made from one to three years, at the option of the men themselves. At the expiration of their contracts they will be free agents. There will be no reserve clause.

SCHOOLBOY SHOOTING RECORD.
High Score of 95 Out of Possible 100 Made.

Iowa City, Iowa, Feb. 6.—Philip Newhouse of the Iowa City City rifle team is believed to have broken the world's record for individual interscholastic shooting here today when in the Iowa City City rifle team, at the Southern High school of Philadelphia he shot a standing score of 95 and a prone score of 100. The team's total score against Philadelphia was 855.

Inside Track for Second Base.

FINANCIAL AND COMMERCIAL.

FAIRLY ACTIVE TRADING.
Stocks Make Temporary Spurt With Coolers in the Lead.

New York, Feb. 6.—Under the lead of the coolers, quotations of stocks advanced vigorously for a time today. Trading was fairly active, with keen bidding for the Harbinger stocks and some of the southern issues, as well as the coolers. The strength of these issues spread through the list and the market became broad, with substantial advances in every quarter. But the movement seemed to be largely manipulative and evoked no sustained demand. Short covering was a decided factor in the advance, and when the inquiry for this purpose became less, the market grew dull. During the afternoon prices were almost motionless, until shortly before the close, when profit taking cooled down the day's gains.

The course of stocks today emphasized the inertia of the market at present, and the lack of confidence of the traders to move far in either direction. In explanation of the lack of initiative it is said that the large traders are unwilling to take a definite stand until they learn whether there is to be a congressional investigation of the political situation apparently have affected the investment demand as well as speculative operations. Although investment in the bonds has been fairly active recently, there are no indications that the demand is spreading to the high grade investment stocks. Apprehensions as to political developments have been supplemented by the influence of indifferent business conditions and doubts as to the ability of some railroads to maintain their dividend rates.

The demand for the coal stocks resulted in an advance in Central Railroad of New Jersey which was almost spectacular.

The opening bid of 346 was advanced steadily with no offers, and it was necessary to raise the price 35 points before stock was sold. Delaware and Hudson rose five points. Reading, Lehigh and Lehigh Valley and several other coal stocks scored lesser gains. Great Northern preferred responded to a strong statement of earnings for December. Some of the tobacco stocks showed marked weakness for a time. American Tobacco broke six and a half, but later rallied sharply.

United States Steel, which rose more than a point, lost most of its gain. Selling of this and other standard issues which brought about the reaction late in the day was perhaps influenced by the granting of an injunction against the steel corporation to prevent it from destroying records which might be of use as evidence in the government's dissolution suit.

Foreign exchange rates weakened and bankers stated that conditions had worked further away from the point at which gold might be exported profitably to Europe. The provisional engagement of an unlimited amount of gold bars for export to Paris was made. It is understood that special engagements have been made for this movement, so that it is independent of exchange rates. The interest in exchange rates is that the gold is for the use of one of the contestants in the war in Tripoli.

A strengthening influence was the unexpectedly favorable gross earnings for January of a number of railroads. The bond market ruled firm. Distillers from New York up a large part of yesterday's loss, but did not hold the improvement fully. Total sales, par value, \$2,575,000. United States bonds were unchanged on call.
